REACH declaration of conformity

Dear customer,

PIC GmbH is fully aware of the REACH regulation.

Our products comply with REACH (EC No. 1907/2006, SVHC list, last amended June 10, 2022 - Annex XIV) as well as Annex XVII since

- we supply articles / products, no substances
- to our knowledge our articles / products do not contain substances intended to be released in normal use
- no SVHC exceeding 0.1% by weight are present in our articles / products*

*According to Article 33 of REACH regulation please be advised that our sensors and magnets with brass housings contain a share of lead (Pb CAS 7439-92-1) below the allowed limit of 0.1% in the housings. Since furthermore lead in this case is bonded and not fugitive, an exposition must not be expected. Therefore there is no requirement for additional instructions for safe use, nor is there a requirement for a specific marking on labels of the product itself or registration in SCIP-database.

We have arranged a system, according to which we have no evidence of any non-compliance. If necessary we will provide updated information as soon as available.

With best regards

Ulrike Wagner
